To: International Fact-Checking Network <factchecknet@poynter.org>

Dear IFCN folks,

In accordance with the invitation on the IFCN page listing signatories to the IFCN Code of Principles, I would like to know which organizations currently listed as "expired" continue in the renewal phase.

In the interest of transparency, I would also like to know why recently published renewals for the Washington Post Fact Checker and Science Feedback make no mention of (so far unresolved) formal complaints about those organizations.

Thanks.
