Dear Truth-O-Meter,

Your [Jan. 27, 2021 fact check](#) of Ron Klain's vaccine plan claim contains an inaccurate summary of the Biden administration's vaccine plans.

The Biden administration [plans](#) to have supplies sufficient to vaccinate [300 million](#) Americans by around the middle of the year. Your fact check misrepresents that number as 300.

That's off by nearly 300 million.

Please consider correcting the error in keeping with your commitment to the International Fact-Checking Network's Code of Principles.
